Cenote Lava

Vasca / Bathtub

design Patricia Urquiola

Inserimento a listino: 1° Luglio

Prezzo attuale: 50.400€

Ulteriori info e sviluppi:

- Versione in argilla refrattaria ancora in sviluppo
- La forma della vasca in pietra potrebbe cambiare per alleggerire il prodotto.

Listing: July 1st

Current price: 50.400€

More info and developments:

- Fire clay version still in development
- Final shapes might change to lighten the lava stone version

Cenote Lava – Vasca / Bathtub

design Patricia Urquiola

Realizzata in roccia vulcanica, grazie a una complessa lavorazione, la vasca si caratterizza per la struttura rettangolare che si arrotonda alle estremità. Il **bordo generoso** dà una sensazione di ulteriore **solidità**. La superficie esterna è “bocciardata”, mentre quella interna è levigata a pelle d’uovo e rifinita con una soluzione idro-oleo repellente che facilita la manutenzione. Il **colore è quello profondo del magma**.

Made of volcanic rock, thanks to complex workmanship the bathtub is characterized by a rectangular structure that is rounded at the ends. The **generous rim** gives a feeling of additional **solidity**. The exterior is “hammered” while the interior is polished to an egg-skin texture and finished with a water-oil repellent solution that facilitates maintenance. The color is the **deep color of magma**.

Sistema / System

design Benedini Associati

Inserimento a listino: 1° Ottobre e presentazione agli open day di Settembre

Prezzo attuale: TBD

Ulteriori info e sviluppi: organizzato un incontro con il designer per rivedere i concetti di modularità e profondità. Richieste versioni con profondità ridotta 30-35 con lavabo a sbalzo e 60 sempre nella versione a parete. Confermata la profondità 80 per la versione a centro stanza

Listing: October 1st and presentation at the open days in September

Current price: TBD

More info and developments: organised a meeting with the designer to review the concepts of modularity and depth. Requested versions with reduced depth 30-35 with basin cantilever and 60 in the wall-mounted version. Confirmed the 80 depth for the centre-mounted version

Craft – Sistema / System

design Benedini Associati

Il sistema contenitori Craft rappresenta una sintesi di **know-how progettuale e alta artigianalità**. Disegnato da Giampaolo Benedini il sistema offre mobili da terra che possono essere configurati come elementi **freestanding, a parete o in nicchia**. Questa versatilità permette a Craft di trasformarsi in un vero elemento architettonico che contribuisce a **definire gli spazi** con eleganza e funzionalità.

The Craft storage system represents a synthesis of **design know-how and high craftsmanship**. Designed by Giampaolo Benedini, it offers floor-standing furniture that can be configured as **freestanding, wall-mounted or niche elements**. This versatility allows Craft to transform into a true architectural element that helps **define spaces** with elegance and functionality.

Ampliamento DR - Sistemi / Systems

design Marcio Kogan, Mariana Ruzante, Studio MK27

Il sistema DR si articola con nuove possibilità e nuovi elementi. Al lavabo già a listino si aggiunge la **struttura** a quattro gambe con **ripiano in carabottino** in finitura coordinata. **La struttura non ha funzione portante**, il lavabo mantiene sempre la modalità di fissaggio a parete. L'opzionale alzata in metallo aggiunge nuove possibilità compositive a questo sistema caratterizzato da un linguaggio spiccatamente architettonico. Nuova finitura in **acciaio inox spazzolato**.

The DR system is expanding with new possibilities and new elements. In addition to the washbasin already included in the price list, there is a four-leg **frame with a carabottino shelf** in a matching finish. The **structure has no load-bearing function**, the washbasin always retains its wall-mounted construction. The optional **metal splashback** adds new compositional possibilities to this system characterised by a distinctly architectural language. New finish in **brushed stainless steel**.

Memory Classic - Rubinetteria / Taps

design Benedini Associati

Adottando un vocabolario autenticamente classico e fedele ai gesti di un tempo, Memory Classic amplia la collezione Memory interpretandone in modo originale il linguaggio nostalgico. Amichevole al tatto, dalla configurazione ergonomica, tondeggiante con spessori pronunciati e angoli smussati, Memory Classic addolcisce il rigore squadrato della collezione. La serie è declinata nella versione monoforo con impugnatura a joystick per la regolazione della portata e della temperatura. Realizzata in ottone, Memory Classic è disponibile nelle finiture nero opaco, brunito spazzolato, cromo e ottone naturale spazzolato.

Adopting an authentically classic vocabulary faithful to the gestures of yesteryear, Memory Classic expands the Memory collection by interpreting its nostalgic language in an original way. Friendly to the touch, with an ergonomic, rounded configuration with pronounced thicknesses and rounded corners, Memory Classic softens the square rigor of the collection. The series is declined in a single-hole version with a joystick handle for flow and temperature control. Made of brass, Memory Classic is available in matte black, brushed burnished, chrome and natural brushed brass finishes.

Cavalletto

Sistema / System
design Angelo Mangiarotti
con Bruno Morassutti, 1953

– Prodotto a listino

Cavalletto - Sistema / System

design Angelo Mangiarotti con Bruno Morassutti, 1953

Sistema di arredo dalla versatilità geniale, il progetto di **Cavalletto** risale al **1953**. L'idea è di realizzare mobili completamente in legno facilmente componibili, sulla base di un unico principio-dettaglio costruttivo che permette di comporli, smontarli e riconfigurarli con **estrema flessibilità** rendendo l'utilizzatore attivamente partecipe nelle fasi finali del processo progettuale. Sovrapponibile su se stesso mediante un semplice giunto a gravità, la sua conformazione gli permette di accogliere, bloccando attraverso un incastro a "coda di rondine", piani per librerie, piani tavolo, moduli contenitori e persino strutture per letti.

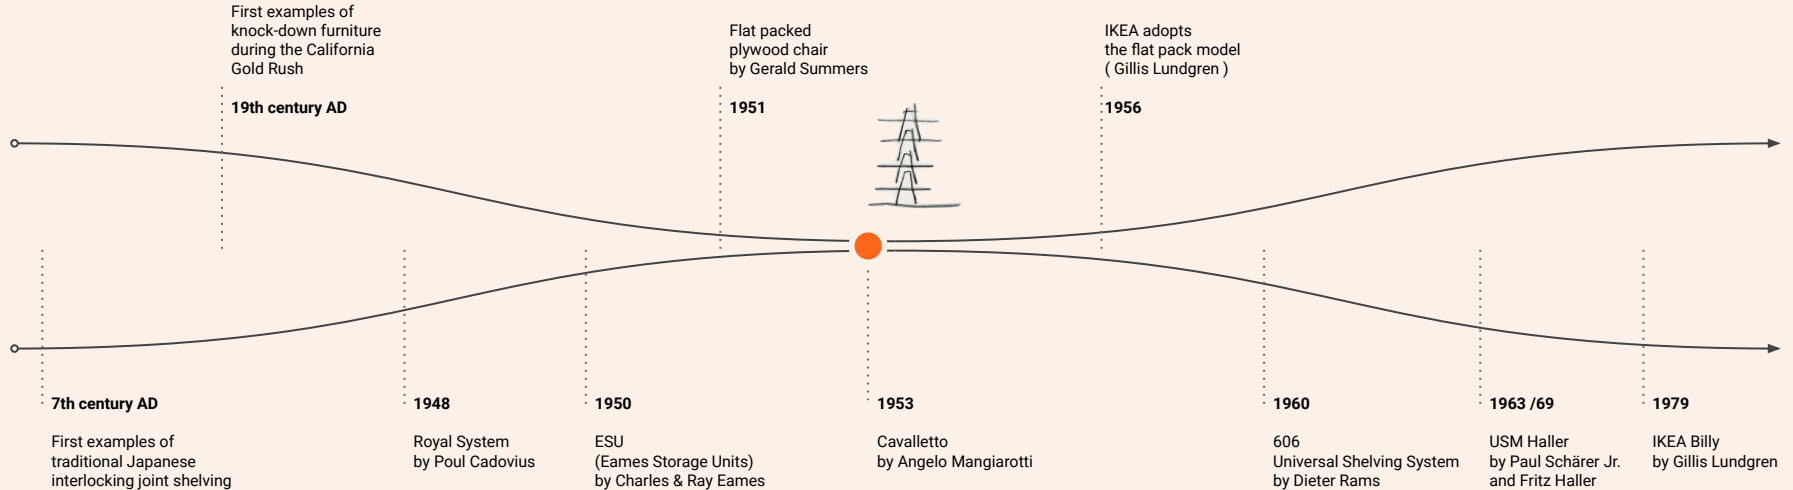

A furniture system of ingenious versatility, **Cavalletto's** design dates back to **1953**. The idea is to make all-wood furniture that is easy to configure, based on a single constructive principle-detail that allows them to be assembled, taken apart and reconfigured with **extreme flexibility**, making the user an active participant in the final stages of the design process. Stackable on itself by means of a simple gravity joint, its shape allows it to accommodate, by **locking through a "dovetail" joint**, bookcase tops, table tops, storage modules and even bed frames.

Cavalletto - Sistema / System

design Angelo Mangiarotti e Bruno Morassutti, 1953

Cavalletto all'incrocio dei sistemi d'arredo modulari, giunzioni a incastro e imballaggi piani.

Club 44 - Tavoli / Tables

design Angelo Mangiarotti con Bruno Morassutti, 1957

Un sintetico manifesto dell'opera del Maestro milanese, **Club 44** è un tavolo senza tempo dalla suggestiva costruzione architettonica. Disegnato nel **1957** insieme a Bruno Morassutti come **pezzo unico** per l'omonimo club di La Chaux-de-Fonds in Svizzera. La costruzione marcatamente architettonica del tavolo in **tre pezzi** lascia esprimere ad ogni elemento le sue caratteristiche e la sua poesia: la massa rassicurante dei **sostegni tronco conici in calcestruzzo**, la **presenza** leggera e **grafica dei piani** e l'eleganza tecnica della **struttura in acciaio** a croce di reminiscenza miesiana.

A concise manifesto of the Milanese master's work, **Club 44** is a timeless table with an evocative architectural construction. Designed in **1957** with Bruno Morassutti as a **unique piece** for the club of the same name in La Chaux-de-Fonds, Switzerland. The markedly architectural construction of the **three-piece table** allows each element to express its own distinctive features and poetry: the reassuring mass of the **truncated conical concrete supports**, the **light and graphic presence of the tops** and the technical elegance of the **cross-shaped steel structure** of Miesian reminiscence.
