COLLECTION**

**MERIDIANI**

**MERIDIANI**

Ogni giardino ha la sua storia. Ogni storia porta con sé delle forme, dei colori, delle memorie. Chiunque ama e capisce uno spazio all'aperto vi trova dentro la capacità di esaudire quel desiderio di evasione dalla vita domestica, così come quello di vivere momenti di convivialità en plein air, ma in simbiosi con lo spazio interno. Meridiani disegna la sua collezione Open Air interpretando i desiderata del mondo outdoor, che impongono la medesima qualità, confortevolezza e ricerca formale dell'indoor. Arredi trasversali con una continuità stilistica con le proposte per l'interior, perfettamente coordinabili, ma declinati in differenti finiture tra in e out. Un'idea di arredo che garantisce bellezza e funzionalità d'uso, dove ciò che è per esterno si può sfoggiare e reinterpretare anche tra le pareti domestiche.

design Andrea Parisio

Every garden has its own story. Every story brings along shapes, colours, and memories. Everyone who loves and appreciates open air spaces can recognize its vocation to satisfy the escape desire from home life, as well as the need to live outdoor moments of conviviality, but still in perfect symbiosis with the spaces inside. Meridiani creates its Open Air collection by interpreting the desires of the open air world, which requires the same quality, comfort and elegance as the indoor one. Versatile pieces featured by a stylistic continuity with the interior collections, perfectly easy to match but with different finishes for in and out. A furnishing concept which combines beauty and functionality and what is meant for the outside can also be shown and reinterpreted inside.

## Living Outdoor

Uno scenario che fa venire voglia di uscire, di godere del verde, di affacciarsi sul lago e guardare il cielo. Una casa che si fonde con il paesaggio, soggetta alle mutevoli sfumature di luce, esprimendo tutto il suo potenziale mimetico. Accostati tra loro in maniera sapiente, gli arredi regalano microcosmi di immaginazione, grazie alla scelta di tessuti e materiali in sintonia con il paesaggio, dando vita a composizioni multisensoriali. È così che un lettino in corda e alluminio viene trasportato direttamente nella piscina per poter godere appieno del contatto con l'acqua, e un divano componibile in iroko, accostato a un tavolino in cemento, ruba la scena al living dentro casa.

6,7

A panorama which inspires the desire to go outside, to enjoy nature admiring the lake view and looking at the sky. A home perfectly merged with the landscape and subject to the changing shades of light, thus expressing all its mimetic soul. Skilfully matched, the furnishing allows microcosms of imagination thanks to the selection of fabrics and materials inspired by the surrounding landscape, giving life to multi-sensorial compositions. That's how the lounge bed in aluminium and rope is placed directly in the swimming pool to fully enjoy the contact with water and the iroko modular sofa, combined with the concrete low table, upstages the indoor living spaces.

## & Other Stories

**Portare a casa la natura e lasciare alla natura la nostra casa. Perché non possiamo fare a meno di costruire giardini e arredare terrazzi, per tenerci vicino il mondo vegetale. Quattro storie diverse, quattro ispirazioni dove gli elementi naturali diventano parte integrante di un'armonia cromatica e materica degli arredi: l'azzurro dell'acqua e del cielo, il verde dei prati e della macchia mediterranea, il marrone del legno e delle foglie. Colori che dipingono luoghi ed emozioni, forme e materie vive che esprimono lo spirito del vivere la propria storia all'aria aperta.**

**Bring the nature home and let the nature entering our home. We cannot help to create gardens and furnish terraces to feel as close as possible to the natural world. Four stories, four different inspirations where the natural elements become part of a colour and material furniture balance: the light blue of the water and the sky, the green of meadows and of the Mediterranean scrub, the brown of wood and leaves. Colours able to paint places and emotions, vibrant shapes and materials which express the spirit of living our own story in the open air.**

# Claud Open Air

Divano modulare, poltrona e lettino: la collezione Claud Open Air si distingue per il design minimale e morbidi cuscini. Sofisticati e resistenti, questi arredi sono realizzati in massello di iroko con vernice protettiva: materiali preziosi e imbottiture soft per un'oasi di relax da vivere totalmente en plein air.

Modular sofa, armchair and lounge bed: the Claud Open Air collection stands out for its minimal design and soft cushions. Sophisticated and resistant, these furnishings are made of solid iroko with protective varnishing. Precious materials and soft padding for a living room and an oasis of relaxation to live 'en plein air'.

## Vincent Open Air

Meridiani porta a esplorare inediti orizzonti di comfort e stile con Vincent, il nuovo divano Open Air firmato Andrea Parisio. Vincent è un prodotto outdoor realizzato attraverso l'incastro tra un elemento seduta dalle proporzioni generose con uno schienale costituito da una struttura in acciaio e un elemento imbottito che avvolge un tubolare in iroko. Il modulo base di Vincent costituisce l'elemento chiave del progetto: una "tessera" che può essere liberamente accostata per composizioni ampie o contenute, in linea o angolari, grazie anche al pouf e all'elemento trapezoidale, che offre maggiori possibilità di personalizzazione e configurazione. A completare la collezione, la chaise longue disponibile con seduta tonda o quadrata. Con la sua grande modularità e l'uso sapiente dei ricercati materiali, il divano Vincent si distingue per la sua estetica semplice ed essenziale ma dall'elevato comfort, delineando la tipica intimità di un ambiente indoor anche all'aria aperta.

Meridiani invites you to discover new horizons in comfort and style with the new Vincent Open Air sofa by Andrea Parisio. Vincent is an outdoor product made by interlocking two components: a generously proportioned seating and an upholstered backrest with a steel and iroko tubular frame. Vincent's basic module serves as the project's focal point: it is a "tile" that may be freely juxtaposed for wide or compact, in-line or corner compositions. The pouf and trapezoidal element further enhance customization and configuration options. The chaise longue, with its square or round seats, completes the collection. With its significant versatility and skilled use of valued materials, the Vincent sofa stands out for its essential design while providing exceptional comfort, evoking the typical warmth of an interior atmosphere even in the open air.

## Zoe Open Air

Zoe Open Air è una collezione di poltrone e divanetto caratterizzata dal sapiente abbinamento di materiali per l'arredo outdoor. Protagonista la corda in polipropilene, ispirata dalle funi utilizzate negli ormeggi delle imbarcazioni, sostenuta da una struttura in metallo verniciato: le quattro colorazioni disponibili la rendono sofisticata nella sua semplicità. Zoe Open Air ha la seduta imbottita e il prezioso intreccio realizzato interamente a mano, in due versioni, che anima lo schienale.

Zoe Open Air is a collection of armchairs and small sofa featured by the skilful combination of outdoor materials. The protagonist is a polypropylene rope, inspired by mooring ropes for boating, and supported by a painted metal frame: the four available colours make it sophisticated in its simplicity. Zoe Open Air has a padded seat and a precious hand-made weave, available in two versions, for the backrest.

## Zoe Open Air

Zoe Open Air è una collezione di poltrone e divanetto caratterizzata dal sapiente abbinamento di materiali per l'arredo outdoor. Protagonista la corda in polipropilene, ispirata dalle funi utilizzate negli ormeggi delle imbarcazioni, sostenuta da una struttura in metallo zincato: le quattro colorazioni disponibili la rendono sofisticata nella sua semplicità. Zoe Open Air ha la seduta imbottita e il prezioso intreccio realizzato interamente a mano, in due versioni, che anima lo schienale.

Zoe Open Air is a collection of armchairs and small sofa featured by the skilful combination of outdoor materials. The protagonist is a polypropylene rope, inspired by mooring ropes for boating, and supported by zinc-coated metal frame: the four available colours make it sophisticated in its simplicity. Zoe Open Air has a padded seat and a precious hand-made weave, available in two versions, for the backrest.

## Zoe Wood Open Air

Massello di iroko, metallo e intrecci di corda sono l'anima di Zoe Wood Open Air: una collezione di poltroncine passe-partout che donano all'ambiente esterno quell'atmosfera accogliente tipica dell'indoor. L'intreccio di corda in polipropilene, in due versioni, è realizzato interamente a mano e si abbina alla struttura in metallo verniciato in quattro differenti colori.

Solid iroko wood, metal and rope weaves are the soul of Zoe Wood Open Air: a collection of passe-partout armchairs that convey to the outside the cosy atmosphere that is typical of the indoor. The weave in polypropylene rope, available in two versions, is entirely handmade and matches the metal frame, available in four different colours.

## Noa Open Air

Ricercata pulizia grafica, essenzialità formale, attento studio dei materiali caratterizzano il lettino Noa Open Air, che trae ispirazione dalle pratiche brandine da outdoor. La corda in polipropilene, si rifà alle funi utilizzate negli ormeggi delle imbarcazioni ed è sostenuta da una struttura in alluminio verniciato. È disponibile nella versione interamente intrecciata, oppure con la seduta in telo di Batyline, e presenta diversi accessori a completamento del prodotto: dal tavolino orientabile in iroko, al materassino per un migliore comfort, fino a un cuscino guanciale o a rullo.

Refined graphic purity, formal simplicity and a carefully selected materials characterise the Noa Open Air lounge bed, which draws inspiration from outdoor camp beds. The polypropylene rope, inspired by nautical mooring ropes, is supported by a frame in painted aluminium. It is available in a fully woven version or with Batyline fabric seat, and it has various accessories to complete it: from the adjustable iroko coffee table to the mattress for better comfort, up to a pillow or bolster.

## Bongo Open Air

Differenti declinazioni di un solido geometrico conferiscono il look a questa collezione di tavoli bassi, disponibili in varie misure e in colori laccati. La finitura opaca rende Bongo Open Air utilizzabile anche in ambienti outdoor, così come anche l'opzione del top in pietra lavica vetrificata - estratta dalle pendici dell'Etna e trattata con diversi cicli di cottura ad alte temperature - conferisce resistenza alla superficie, assicurando un risultato a regola d'arte, sostenibile e dalla sincera anima Made in Italy.

Different variations of a geometric solid determine the look to this collection of low tables, available in various sizes and lacquered colors. The matt finish makes Bongo Open Air also suitable in outdoor environments, as well as the option of a glazed lava stone top - extracted from the slopes of Etna (Sicily, Italy) and treated with several cycles at high temperatures - gives strength to the surface, ensuring a flawless, sustainable result with a true Made in Italy soul.

## Cone Open Air

Cone Open Air è una collezione di tavolini con la base dalla forma di cono in solido cemento Ductal® in finitura grigio chiaro. Formato da finissimi componenti minerali naturali e fibre organiche, che lo rendono resistente e flessibile, questo cemento è di altissima qualità e tecnologia studiato per un utilizzo in ambienti esterni. Il piano in legno di iroko è disponibile nella forma quadrata o tonda.

Cone Open Air is a collection of coffee tables with a cone-shaped base in Ductal® concrete with a light grey finish. Made up of very fine natural mineral components and organic fibers, which make it resistant and flexible, this concrete is of the highest quality and technology, conceived for outdoor use. The top is made of iroko wood and is available with a square or round shape.

## Fabien Open Air

Il tavolino Fabien Open Air unisce il carattere e la resistenza di una struttura in metallo zincato con la ricercatezza unica dei piani in pietra lavica vetrificata. Il top, nei colori rosso, giallo, grigio o verde asparago, è espressione di una perfetta collaborazione tra tecnologia e natura, una testimonianza delle potenzialità tecno-fisiche della materia nel rispetto dell'ambiente. La pietra lavica naturale, estratta dalle pendici dell'Etna, viene trattata ad alte temperature con un forno industriale a diversi cicli di cottura, un esclusivo processo di lavorazione termica che consente di ottenere una finitura sostenibile con colorazione a campo pieno, impreziosita da vetri frantumati di monitor di tv e pc in disuso. Grazie a questo know-how unico nel suo genere, i piani del tavolino Fabien garantiscono eccellenti prestazioni in esterno e restituiscono un'immagine estetica pregiata. Fabien riflette il legame profondo di Meridiani con il Made in Italy, nonché la ricerca costante di materie prime di alta qualità e l'attenzione verso spazi abitativi che chiamano un arredamento unico e personale, per una dichiarazione di stile che trasforma gli spazi all'aperto in luoghi di esclusività.

Fabien Open Air low table combines the character and strength of a galvanized metal frame with the sophistication of the glazed lava stone surface. The top, available in red, yellow, gray, or asparagus green, is an expression of a perfect collaboration between technology and nature, revealing the material's potential while also preserving the environment. Natural lava stone, quarried from the slopes of Mount Etna (Sicily, Italy), is treated at high temperatures generated by special facilities, using several thermal cycles to get a long-lasting finish, embellished with the use of crushed glass from disused TV and PC monitors. Thanks to this one-of-a-kind expertise, the tops of the Fabien low table ensure great outdoor performance and provide an eye-catching look. Fabien highlights Meridiani's strong commitment to Made in Italy, as well as its ongoing search for high-quality raw materials and attention to living areas that seek distinctive and personal furniture, along with a design statement that turns the outdoors into exclusive spaces.

## Joi Open Air

Per chi ama la bellezza dei materiali crudi: massello di iroko e cemento prendono vita su Joi Open Air, una collezione di tavoli rettangolari e tavolini quadrati in diverse dimensioni, dalla linea visivamente leggera. Espressamente progettati per un utilizzo esterno, i piani sono in cemento Ductal®, componente di altissima qualità e tecnologia, formato da finissimi componenti minerali naturali e fibre organiche, che lo rendono resistente e flessibile. La sua finitura grigio chiaro rende Joi Open Air perfetto per un palcoscenico contemporaneo e urbano.

For those who love the beauty of raw materials: iroko solid wood and concrete come to life with Joi Open Air, a collection of rectangular tables and square side tables in different sizes, with visually pure lines. Conceived for an external use, the tops are in Ductal® concrete, a component of the highest quality and technology, made up of very fine natural mineral components and organic fibres, which make it resistant and flexible. Its light grey finish makes Joi Open Air perfect for a contemporary and urban stage.

## Tai Open Air

Tai Open Air è una collezione di sedie caratterizzata dal sapiente abbinamento di materiali per l'arredo outdoor. Protagonista la corda in polipropilene, ispirata dalle funi utilizzate negli ormeggi delle imbarcazioni, sostenuta da una struttura in metallo zincato: le quattro colorazioni disponibili la rendono sofisticata nella sua semplicità. Tai Open Air può avere la seduta imbottita o avere il prezioso intreccio realizzato interamente a mano, in due versioni, che anima sia lo schienale sia il sedile.

Tai Open Air is a collection of chairs featured by the skilful combination of outdoor materials. The protagonist is polypropylene rope, inspired by mooring ropes for boating, and supported by a zinc-coated metal frame; the four available colours make it sophisticated in its simplicity. Tai Open Air can either present a padded seat or else a precious hand-made weave, available in two versions, for both backrest and seat.

**TECHNICAL DETAILS**

**IT**

**sedia UNO**

- sedia con seduta imbottita sfoderabile e schienale in corda

# Track

Segni grafici con decori orizzontali, verticali e circolari per il tappeto Track: il design gioca con i pattern più pop per creare tracciati e colori in movimento. Realizzato in fibra poliolefinica, materiale permeabile e traspirante, oltre che riciclabile e resistente al cloro e alla luce, questo tappeto ha una struttura a treccia realizzata interamente a mano. Track è indicato per spazi outdoor, ma perfetto anche in ambienti interni, in una coordinazione assoluta tra in e out. Le colorazioni disponibili si prestano a definire spazi eclettici senza soluzione di continuità e permettono di dare risalto agli arredi con accostamenti cromatici insoliti o con la semplicità e il carattere delle tinte unite. Questa nuova serie, che offre quattro formati standard, ancora una volta stupisce per la sua versatilità grazie anche alla personalizzazione dimensionale.

Graphic signs with horizontal, vertical and circular decorations for the Track rug: design plays with the most pop patterns to create moving tracks and colours. Realized in polyolefin fibre, a permeable and breathable material, this rug with an entirely handmade plaited structure is recyclable and it's resistant to chlorine and light. Track is specified for outdoor spaces but perfectly suitable also for indoor ones for a perfect coordination of in and out. The available shades lend themselves to define eclectic spaces without interruptions and allow to emphasize the furnishings with unusual chromatic combinations or with the simplicity and character of solid colours. This new series, which offers four standard formats, once again amazes for its versatility thanks to dimensional customization.

#### INFORMAZIONI TECNICHE

Gli arredi per esterni, come qualsiasi materiale collocato all'aperto, anche se trattati con processi di finitura dedicati, sono destinati a subire nel tempo alterazioni di tipo cromatico e materiale, che sono dovute all'azione degli agenti atmosferici ed alle condizioni climatiche differenti per ogni area geografica (grado di umidità dell'aria, salinità, esposizione ai raggi U.V. e sbalzi termici).

Sugeriamo pertanto, per tutti i nostri prodotti openair, una collocazione ideale in verande e terrazzi coperti e/o semi coperti, comunque si sconsiglia l'esposizione diretta e prolungata alle intemperie. La corretta manutenzione del prodotto rallenta e migliora i processi di alterazione dei vari materiali. Per la manutenzione i prodotti devono essere lavati senza fare ricorso a detersivi aggressivi e devono essere asciugati rapidamente e accuratamente. Devono essere evitati i ristagni di acqua in qualsiasi parte del prodotto e si deve altresì evitare di urtare il prodotto provocando abrasioni che potrebbero incidere il trattamento protettivo effettuato sulle superfici dei materiali. È altamente consigliato l'utilizzo delle "cover" impermeabili, così come la collocazione dei prodotti in ambienti protetti nel periodo in cui non vengono utilizzati in esterni.

#### TECHNICAL REMARKS

Outdoor furniture, as any products placed outdoor, is subjected with time to color and material shading bound to exposure to atmospheric agents and different geographic locations (air humidity, salts, UV rays and temperature leaps), even if treated with proper suitable finish. As a consequence, the ideal setting recommended by Meridiani for all our openair products is in covered or partially-covered verandas or terraces, anyway avoiding direct exposure to atmospheric agents. A proper product maintenance reduces natural material aging. For a proper maintenance products should be washed without using aggressive detergents and cleaned quickly and carefully. Avoid keeping stagnant water on the products, as well as hitting frames thus removing the protective finish from the surfaces. Meridiani highly suggest covering the products with the special water-proof slipcovers, along with stocking them indoor during winter season.

162, 163

#### WATER PROOF COVER

Meridiani consiglia di proteggere gli arredi per esterni adottando le speciali fodere di protezione "water proof cover", realizzate in tessuto tecnico impermeabile. È buona norma accertarsi che i prodotti, i cuscini e le fodere "water proof cover" siano perfettamente asciutti prima di effettuare la copertura, per evitare l'accumulo di umidità e/o la formazione di macchie di muffa.

#### WATER PROOF COVER

Meridiani recommends that this outdoor furniture be stored with the "water proof cover" made of technical waterproof material. It is important to make sure the products, cushions and "water proof covers" are perfectly dry before storage, to avoid the accumulation of humidity and/or the formation of mold stains.

#### IMBOTTITURE

Le imbottiture dei cuscini sono realizzate in poliuretano espanso e fibre poliestere anallergiche, materiali che garantiscono grande comfort ma possono subire nel tempo delle variazioni dimensionali dovute al normale corretto utilizzo. Le imbottiture Open Air sono dotate di fodere in tessuto tecnico idrorepellente.

#### FILLING

The cushion filling is made of polyurethane foam and hypo-allergenic polyester fibers, materials that can guarantee great comfort but that can change dimensions in time because of normal correct use. The Open Air cushion paddings are covered with a waterproof technical material case.

#### TESSUTI

I tessuti proposti per la collezione Open Air rispondono a requisiti specifici per l'utilizzo outdoor senza che ne venga compromesso l'aspetto, la mano e il colore. Hanno una buona resistenza alla luce del sole, alla salsedine, al cloro, agli acidi, alle creme solari, al sudore, alle macchie e all'usura. Per le caratteristiche specifiche e la manutenzione si prega riferirsi alle indicazioni riportate sui campionari e listini.

#### FABRICS

The fabrics used for our Open Air collections have been chosen because they are in compliance with an outdoor use and will not alter their aspect or color. They are resistant to direct sunlight, seawater, bleach, acids, solar creams, perspiration, and usage. Please refer to the indications that can be found on samples and catalogues for specific characteristics and maintenance.

#### LEGNO IROKO

Essenza pregiata proveniente da diverse zone dell'Africa centrale equatoriale, particolarmente indicata per gli utilizzi outdoor per la sua buona resistenza alle escursioni termiche, all'umidità e agli agenti atmosferici. Il suo segno distintivo è la naturalezza, evidenziata da variazioni di colore, sfumature e tipiche venature del legno. Queste non sono da considerarsi difetti, bensì caratteristiche distintive che determinano l'unicità e la naturale bellezza del materiale. L'esposizione agli agenti atmosferici può creare nel tempo una patina grigio-argentea sulla superficie del legno, frutto di un naturale processo di maturazione del materiale. Il trattamento di verniciatura conferisce al supporto caratteristiche di idrorepellenza e protezione al viraggio del colore e alle muffe. Esso è idoneo solo per prodotti non esposti direttamente alle intemperie.

#### IROKO WOOD

A precious wood that grows in several central equatorial African areas, it is mainly indicated for outdoor furniture, with its strong resistance to temperature changes, humidity and weather. Its distinctive feature is the naturalness, highlighted by colour variations, shades and original veinings. These are not to be considered faults, rather distinctive features that determine the uniqueness and natural beauty of the material. The exposure to atmospheric agents can gradually create a silver-grey patina on the wood surface, the result of a natural maturation process of the material. The protective varnish that is applied adds a waterproof coating that also protects against color changes and mould. This particular coating protects the furniture against indirect exposure to adverse weather conditions.

#### LACCATURA OPACA

La laccatura opaca liscia per esterni è realizzata con speciali vernici acriliche pigmentate, applicate su un fondo preparato con materiali sempre idonei per uso esterno.

##### MATT LACQUER

The matt lacquer used for external furniture is made of special colored acrylic varnishes, that are applied on a base prepared with external use products.

#### ALLUMINIO

L'alluminio è un materiale particolarmente adatto all'uso outdoor grazie alle sue caratteristiche che lo rendono resistente alla corrosione se esposto agli agenti atmosferici, all'umidità e in località marine. La leggerezza è una delle proprietà più apprezzate di questo materiale. Le strutture in alluminio vengono finite tramite verniciatura a polvere poliestere adatta per esterni, nei colori di collezione Meridiani.

##### ALUMINIUM

Aluminium is a material particularly suitable for outdoor thanks to its characteristics that make it resistant to corrosion by adverse weather conditions, to humidity and in marine areas. Lightness is one of the most appreciated features of this material. The aluminium structures are treated with a powdered polyester varnish, specifically created for outdoor use, in the colours of Meridiani collection.

#### METALLO ZINCATO

Ottenuto tramite processo detto Sendzimir. Tale processo prevede un trattamento di zincatura superficiale mediante immersione in un bagno chimico, il quale deposita uno strato di zinco agendo da protettivo contro la corrosione.

##### ZINC-COATED METAL

Made through Sendzimir process, which includes a surface zinc-coating treatment through immersion in chemical bath, creating a zinc-coated film that prevents corrosion.

#### ACCIAIO AISI 316

L'AISI 316 è una lega d'acciaio austenitica, considerata tra le più resistenti fra quelle attualmente disponibili. Oltre al Carbonio, l'acciaio AISI 316 contiene Nichel, Cromo, Titanio, Niobio e Tantalio, elementi che gli permettono di garantire proprietà quali una elevata resistenza ad ogni fenomeno di corrosione, una grande facilità di pulizia e un elevato coefficiente igienico. Grazie alle sue qualità, l'acciaio austenitico, nonostante il suo costo sia superiore a quello di altre tipologie, è un materiale assolutamente adeguato per utilizzo in ambito nautico e per la realizzazione di arredi per l'outdoor.

##### AISI 316 STEEL

AISI 316 is an austenitic steel alloy that is considered one of the most resistant alloys available today. AISI 316 STEEL contains carbon, nickel, chrome, titanium, niobium and tantalum, creating a product with guaranteed high resistance to corrosion that is easy to clean and very hygienic. Austenitic steel has many qualities, and although it has an elevated cost, it is perfectly suitable for any use in nautical environments and to create outdoor furniture.

#### VERNICI A POLVERE POLIESTERE

Gli arredi per esterni realizzati in acciaio ed alluminio vengono trattati con vernice opaca a polvere poliestere adatta per esterni, nei colori di collezione Meridiani.

##### POLYESTER POWDER COATINGS

Our outdoor furniture is made of steel and aluminum that is treated with a matt polyester powder varnish, suitable for outdoor, in the colours of Meridiani collection.

#### PIETRA LAVICA

Pietra lavica del vulcano Etna decorata a campo pieno con vetro recuperato da vecchi monitor TV e PC dismessi e trattata termicamente con un forno industriale a diversi cicli di cottura. La pietra lavica vetrificata dopo questo trattamento risulta omogenea, liscia e lucida. Tale processo ne migliora le caratteristiche tecniche.

##### LAVA STONE

Lava stone from Etna volcano, decorated with recycled old-discarded TV and PC monitors glass and thermal treated in industrial oven at different cooking stages. After this process, vitrified lava stone appear homogeneous, smooth and shiny; technical features are herewith improved.

#### CEMENTO

Il cemento utilizzato per i prodotti Open Air di Meridiani non è un cemento tradizionale, ma un materiale innovativo brevettato con il nome di UHPC Ductal®, un cemento fibrorinforzato con caratteristiche tecniche certificate. Ogni elemento è frutto di una produzione industriale combinata con l'artigianalità degli operatori: il processo di finitura dei manufatti viene eseguito a mano garantendo l'unicità di ciascun pezzo. La finitura grigio chiaro del cemento avviene tramite colorazione in massa che garantisce una maggior durata del colore nel tempo se sottoposto agli agenti atmosferici. Tutti i piani della collezione Meridiani realizzati con questo materiale hanno un trattamento protettivo filmogeno, che protegge attraverso la creazione di una pellicola che conferisce idrorepellenza e buona resistenza alle macchie, a discapito di una minor resistenza al graffio. Le basi, invece, subiscono un trattamento protettivo ad assorbimento completo che li rendono più performanti al graffio e meno alle macchie.

##### CONCRETE

The concrete used for Meridiani Open Air products is not a traditional one, but an innovative material patented with the name UHPC Ductal®, a fiber-reinforced concrete with certified technical characteristics. Each element is the result of an industrial production combined with the craftsmanship of the single operator: the finishing process of the products is carried out by hand, so that each piece is unique. The light grey finish of the concrete is made through mass coloration, that guarantees longer lasting colour over time if in bad weather conditions. All the tops of the Meridiani collection that are made with this material are coated with a protective film that makes the material waterproof and stain resistant, even if less resistant to scratching. The bases instead undergo a protective treatment with complete absorption, which make them more resistant to scratching but less resistant to stains.

#### **CORDA**

Corde in polipropilene adatte ad uso esterno utilizzate anche nella nautica. Le proprietà dei filati di polipropilene sono la tenacità, la resistenza all'abrasione e una buona resistenza all'azione degli agenti atmosferici. I filati di polipropilene utilizzati per la realizzazione degli intrecci che caratterizzano i prodotti della collezione Open Air sono tinti in massa, antistatici, anti-muffa, anti-macchia, resistenti alla luce solare, alla salsedine e al cloro. Inoltre sono totalmente riciclabili.

#### **ROPE**

Polypropylene rope is used outdoors as well as in nautical environment. The properties of polypropylene are tenacity, resistance to abrasion and adverse weather conditions. Polypropylene rope is used for the wicker work that characterizes the Open Air collection products. They are mass colored, antistatic, mold proof, stain proof, resistant to UV rays, to salt and chlorine. They are also 100% recyclable.

#### **BATYLINE**

Tessuto tecnico in poliestere rivestito in pvc, con cuciture termosaldate. Tessuto ad elevato valore estetico di design e di comfort. Ottima stabilità dimensionale ed eccezionale resistenza alle condizioni esterne (UV, temperature, umidità, muffe, atmosfera marittima). Estrema resistenza agli strappi. Rapidità di asciugamento grazie alla costruzione aperta. Una lunga esposizione al sole può causare nel tempo un viraggio del colore.

#### **BATYLINE**

Technical fabric in polyester covered in pvc, with heat-sealed seams. This material has an aesthetically beautiful design and is comfortable. It has excellent dimensional stability and exceptional resistance to adverse weather conditions (UV, temperature, humidity, mold, marine environment). It does not tear. It dries rapidly because of its open construction. Color may bleach if left out in direct sunlight for any length of time.
